Task 1: Typing club + algorithm

My goal for speed typing is to consistently achieve a typing speed of 60 words per minute (wpm) with a high level of accuracy. I believe this speed will significantly enhance my productivity and efficiency in various tasks, whether it's writing emails, coding, or taking notes. My goal for speed typing is to consistently achieve a typing speed of 60 words per minute (wpm) with a high level of accuracy. I believe

this speed will significantly enhance my productivity and efficiency in various tasks, whether it's writing emails, coding, or taking notes.

And my plan is:

1. **Practice Daily:** Spend a few minutes each day typing.
2. **Accuracy Matters:** Focus on hitting the right keys without mistakes.
3. **Learn Touch Typing:** Type without looking at the keyboard.
4. **Use Fun Content:** Practice with interesting articles or texts.
5. **Track Progress:** Measure your speed and set achievable goals.
6. **Join Challenges:** Participate in typing challenges.
7. **Stay Comfortable:** Ensure an ergonomic workspace.

### Algorithm for game 3:

1. Declare coins and ask for the number of coins in the pile.
2. While the number of coins does not equal zero.
3. Ask player 1 for a square number.
4. Check if the number is square.
5. Subtract the number from the coins.
6. Check if the coins are less than or equal to 0 if yes then player 2 wins.
7. Ask player 2 for a square number.
8. Check if the number is square.
9. Subtract the number from the coins.
10. Check if the coins are less than or equal to 0 if yes then player 1 wins.
11. End loop.
12. Ask if they want to play again if yes start the game again.
